Today's Key Priorities in GBV Prevention and Response

The first U.S. National Plan to End Gender-Based Violence[10] was released in 2023, informed by a comprehensive, national process that engaged survivors, advocates, and other stakeholders. This policy overview is organized around selected National Plan priority areas, with a brief summary describing policies responsive to GBV prevention or survivor support.

KEY: ✓ GBV Responsive | ◐ Some elements GBV responsive | ✗ Not GBV responsive

Priority Area 1: Prevention

✗ DV training for healthcare workers is not encouraged or required in state policy (2019).[10]

✓ State law requires or encourages training for prevention of human trafficking among specified professions or in specific locations (2024).[11]
Required for commercial drivers licensing.[11]

✓ State law mandates child sexual abuse (CSA) education to some or all students and some or all staff (2025).[12]
